GD Goenka Cambridge aims at: Mastery in communication skills, clarity, coherence, and independence in thoughts, an appreciation of scientific, economic and political ideas and practices physical and mental health and hygiene with ethical and cultural values. The school achieves its mission when each and every child succeeds. Thus, Cambridge School is totally committed to modernizing education and unlocking the potential of each child. We thank parents and guardians for choosing Cambridge School as a dais for their children's future. Let us work together towards a better world !!!

A major cause of dissatisfaction among children is that they are not being taught what they want to learn. GD Goenka Cambridge engages the child in project-based learning, documenting the child's journey of investigation through engaging activities, interviews, resource books and audio visuals, while developing critical thinking and problem-solving skills. Kids in the Cambridge curriculum are exposed to a variety of fun activities that are crucial for their mental development. The curriculum follows international guidelines for child development in each stage, providing teachers with the tools they need to make every child's individual learning journey successful. In GD Goenka Cambridge, every child matters. We welcome you to begin your child's journey with us.
